About Lung Cancer Alliance

Lung Cancer Alliance is the only national non-profit organization providing patient support and advocacy exclusive to those living with or at risk for lung cancer.

Headquartered in Washington, DC, Lung Cancer Alliance is committed to making lung cancer a national public health priority.

Our Goal

To eradicate lung cancer.

Our Commitments

We are committed to the following actions and initiatives:

Advocacy

- Elevate lung cancer to a national public health priority.
- Educate federal/state policy leaders of the need for greater resources for lung cancer research for prevention, early detection, and treatment.
- Continue to organize state chapters.
- Ensure that Lung Cancer Alliance has a “seat at the table” where it counts, to ensure that policy decisions and resource allocations are being made the lung cancer community’s interests in mind.
- Develop strategic partnerships with those committed to addressing lung cancer with an overall plan and sense of urgency.
- Continue our national public awareness campaign to change the face of lung cancer to reduce the stigma associated with the disease.
- Develop grassroots programs that bring volunteers and partners together to achieve coordinated campaigns for action on vital lung cancer issues.
- Produce an annual National Report Card on Lung Cancer to benchmark progress made towards lung cancer eradication.

Patient Support and Education

- Continue to be the ultimate and most credible source of information about lung cancer.
- Provide patient education and psychosocial support for lung cancer survivors, patients, family members, and caregivers through our Phone Buddy Program, Lung Cancer Hotline, *Spirit & Breath* Newsletter, our online support community through our website and our Blog at www.lungcancerallianceblog.org.
- Maintain our Lung Cancer Clinical Trials Matching Service to ensure patients diagnosed with lung cancer know all treatment options—including clinical trials.

NO MORE EXCUSES. **NO MORE LUNG CANCER.**
